Casino sites cause concern

BY ED LEPOMA

A joint report issued by two major federal agencies does not bode well for two casino developments planned in the north Bay of St. Louis.

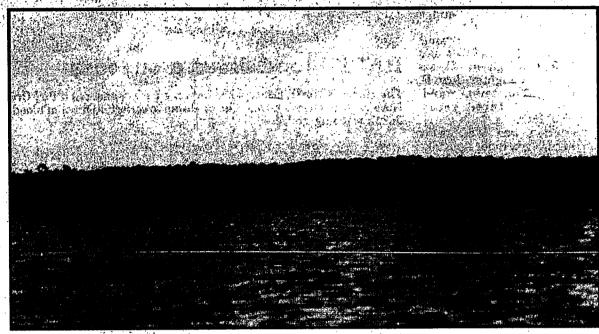

The report, entitled "Gaming Facilities Development in Coastal Mississippi," was issued Oct. 18 by the U.S. Army Corps of Engineers and the U.S. Environmental Protection Agency. The Echo obtained a copy of the report from the Corps' District office in Mobile.

The introductory paragraphs of the Joint Public Notice points out that Mississippi's Gaming Law requires

that casinos in coastal Mississippi be located in navigable waters.

"Section 10 of the River and Harbor Act of 1899 requires that construction of any structure in or over navigable waters of the United States, excavating or depositing materials in such waters, or conducting any work affecting the course, location, condition, or capacity of such waters must have a Department of the Army (DOA) permit issued by the U.S. Corps of Engineers. "Section 404 of the Clean Wa-

scold Wellman

BY ED LEPOMA

It amounted to the new kid on the block being taken to the woodshed, but Wellman officials told Hancock County supervisors they got the message loud and clear.

Supervisors want Hancock County business to benefit the most from lucrative construction contracts that will be awarded for building the giant plastics/fiber manufacturing plant at the Port Bienville Industrial Park. If local firms can't be found with the needed expertise, then Wellman can look to other companies along the Mississippi Coast, then to Mississippi firms elsewhere, they said.

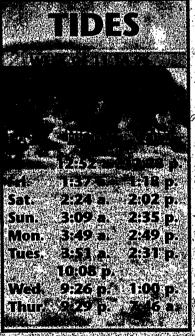

The showdown between supervisors and Wellman had been brewing for a couple of weeks. Wellman first advertised for bids on the drainage, dredging and soil boring needed before Phase I of the \$313 million plant comes out of the ground. However, at a meeting with potential contractors, after the work was advertised, they were asked to include Phase II costs.

Ultimately, all bids were rejected, and rather than readvertise-a process that could take another 30 days-Wellman selected Ronald Adams of Thibodeaux, La. to clear the site, and opted to spend \$4.7 million of its own funds, rather than use county or local bond monies available to them.

Board of Supervisors President Philip Moran said he and fellow supervisors, "Are taking a lot of heat on this. The people still think it's county money being used."

CO (Pete) Woody project director for Wellman's Pearl River Plant, said he understood supervisor's concerns, and he

Pass workers operating under stricter 'personnel' guidelines

BY ED LEPOMA

Pass Christian public works employees are now operating under stricter rules.

At its monthly meeting last Wednesday night, the Board of Aldermen adopted stringent guidelines for the 13-member department, and instructed Foreman Bill Billingsley to begin enforcing the rules

immediately.

The new "personnel rules" were drafted by Board Attorney Malcolm Jones with input from Mayor Billy McDonald. The mayor said the rules are a prelude to a personnel manual. which he plans to have aldermen adopt for all city employees to follow.

McDonald said since taking office a little more than a year ago, "I've been busy putting out the big fires, and didn't have time for the brush fires."

He said he has had citizen complaints about workers resting in trucks aside the road, and the department had no procedure for employees calling in sick or taking annual or compensatory time.

McDonald chose not to hire a new department head after Johnny Walters resigned last May. Instead, he named Billingsley foreman, and meets with him each morning to coordinate assignement of work

Under the new regulations.

all employees must arrive for radio system for non-business work by 7 a.m. each day, and punch in on the time clock. They must leave for their work assignment by 7:15 a.m.

Employees are allowed a break from noon until 1 p.m. each day for lunch and must sign out and back in on the time

Employes must return to the Public Works barn on North Street by 3:30 p.m. each day and check the fuel, water and oil in their vehicle or equipment to prepare for the new work day. Punch out time is 4 p.m., unless directed by the foreman.

Employees are warned that no person shall punch a time card for another employee without permission of the foreman.

Employees must call in sick to the foreman by 7:15 a.m. and receive permission to be absent from work. The foreman may require any employees who is excused from work for two days or more due to sickness to provide a written doctor's excuse.

No employee may leave work or his work assignment during the work day without the express permission of the foreman or the mayor, and employees are not allowed to use the telephone at the barn for personal salls without the foreman's permission.

Employees have also been warned they cannot use the city

communication and profanity; obscenity and lewd comments or suggestions are prohibited over the radios at all times.

Employees were told the mayor is the Superintendent of the Public Works Department and failure to follow the mayor's or the foreman's directions is cause for disciplinary action.

Inmates working for the city shall be properly supervised at all times, according to rules of the Harrison County's Sheriff's Department.

Employees have been warned that violation of any of these rules "may result in disciplinary action, including reprimand, suspension or termination."

In other action, the mayor and aldermen went into executive session almost a half-hour to discuss paying claims still outstanding from firms who handled the city's unsuccessful annexation bid last year.

No decision was announced, but McDonald said the largest bill still outstanding was \$69,273 to Lusteck & Associates, a Jackson-based planning firm that conducted and wrote the feasibility study to justify annexing Pass Christian Isles and Henderson Point. The city has already paid them \$55,370 of the total \$124,643 bill the

firm submitted. Ward One Aldermen Jeff

Emerson has balked at paying them any more, saying the judge that heard the annexation case ruled against all issues of justification raised by that firm.

Also still outstanding is a bill for \$3,243 submitted by Moore and Powell.

Emerson has said he is also not in favor of paying that charge, saying the data the CPAs submitted were based on information they collected over the years they acted as the city's auditors.

In other action, the board concurred in recommendatins of the Harbor Commission to get appraisals "for the true market value" of the four commercial establishments in the Municipal Harbor.

The city plans to raise rents when leases expire in 1998.

By Ellis C. Cuevas

The "touch of winter" over the weekend is very welcomed by many.

As the cool front passed the area, it just seemed to

clear the atmosphere.

I noticed how bright and clear the sunshine was on Sunday, and even with my poor eyesight I could see for

I am a warm-weather person myself, but I feel it is good to have the cooler weather.

Lhave also been noting color changes in the leaves of several of our trees as I drive about the area.

We always have a lot of green because of the pine and evergreen oaks, but it is good to see the fall colors mixed among the pines.

I received a request from Judy Jackson, activity director of Woodland Village Nursing Center, seeking secret Santas.

Mrs. Jackson is seeking choirs, dancers, singers, clowns and people with other talents to bring cheer to the residents of the retirement center at Diamondhead.

If you or your group may be able to give a bit of time during the month of December, just give Ms. Jackson a call at 255-4832.

Tomorrow from 9 a.m. until noon will be the last time RSVP volunteers will be taking applications for Thanksgiving baskets at the Our Lady of the Gulf Catholic Church's Rectory Conference Room.

The Thanksgiving baskets for deserving citizens have been a project of OLG's St. Vincent de Paul Society for many years.

OLG Society members collect food and funds from parishioners for the Thanksgiving baskets.

Each year some 150 baskets are given to deserving families.

I received a letter recently from Isaac Bates Givens, chef and pastry chef of Willmington, Calif.

Mr. Givens, who will be 82 on his next birthday, was raised in Bay St. Louis.

Givens mentioned United States Senator Trent Lott

will see to fairness in fish conservation, and he feels this is very important. He also mentioned how his mother and father had nine kids earning \$2 a day, and the family would attend on Sundays, he reported his family would attend

church and go to the depot and see the trains.

He said his generation had to leave the area in order to find jobs. He first went to New Orleans and worked for a feed store for some ten years before moving onto greener pastures.

He keeps up with Bay St. Louis happenings by subscribing to The Echo and mentioned how two churches recently celebrated 100 years in the community.

He said a sister lives across the street from where his family lived on Citizen Street. His mother was 98 when

she died in Bay St. Louis.
Things have changed for the good in the Bay St. Louis area, and we are lucky today that all of our youths do not have to leave the area in order to find good

The building of a new plant and expansion of another going on at the Port Bienville Industrial Park and other job opportunities mean a future for many of our young Dear Editor:

There is a saying that home is where one's heart is. and I have a feeling that Mr. Givens' heart is in Bay St.

State Democratic Party trying to correct mistake

Mississippi's Democrats got egg on their faces back last-May when the state party convention violated its own diver-sity rules and elected blacks as both National Democratic Committeeman and National Democratic Committeewoman. Now the party seems to be rectifying that embarrassing episode. It turns out that the election of a black national committeeman was not properly done in the first place, and the state Democratic Party is trying to straighten it out. An appeals council named

by the state Democratic Chairman Johnnie Walls has nulls fied the lifetime of Drei Irving, of Greenwood, who is black, on grounds that he did not have a majority of the vote for national committeeman

Incumbent National Committeeman George Powell of Byhalia, who is white, had trailed in the first ballot for the job back last May with 171 votes to Irving's 207. But a third candidate, Dr. Ed Moak, who is also white, put in the race at the last moment as a ploy, had polled 75 votes. meaning none had a majority. In the chaos of the conven-

tion which followed, party chairman Walls failed to automatically order a runoff as required by the state party constitution. Powell's re-election to the

National Democratic Committee had been considered almost a certainty along with black state Sen. Alice Harden of Jackson who earlier was reelected national committeewoman without opposition.
Significantly, Harden, one of the leading black legislative

critics of Gov. Fordice for naming four white college board appointees earlier this year, had campaigned for Powell's

had campaigned for Powell's re-election as her colleague on the national committee.

**Following the state convention. Powell formally challenged the election of Irving on grounds he had not received a majority Powell filed an appeal to party charman Walls.

College an appeal committees.

held Powell's challenge and ruled that no one had been elected national committeeman because there was no majority vote. The council said, assuming Irving would appeal their decision, that the matter be referred to the state Democratic Executive Committee to be resolved.

Presumably, the executive committee will fill the national commiteeman slot itself. There's always the remote possibility that the entire state convention will be reconvened to settle the controversy, but more likely if the whole con-continuous involved dole -gates would be polled by mail

ballots.

Meantime, Powell continued on as National Democratic Committeeman through the National Democratic Convention in August, but did not sit with the DNC after the convention ended. In effect, the state has an open seat on the national committee.

The state Democratic Executive Committee has a slight majority of white members but that is no certainty it will vote along racial lines on the Powell challenge. For instance, Walls, who is black, was elected state chairman by the executive committee even though he had a white opponent, former state Sen. Bill Guy of McComb. Guy is blamed by many

Democrats for having precipitated the national committeeman dilemma in the first place. with his strategy that went bad on how he would unseat Walls as party chairman.
The McComb attorney and

1995 candidate for Lt. Governor was believed to have put a white candidate (Dr. Moak) up against Powell, on the theory that if the party elected two blacks as national committee members, then the state executive committee would be constrained to elect a white chair-

However, some white mem-bers of the state executive committee, so turned off by Guy's plot, voted for Walls.

POA BOARD

Mr. Cronvich says the present Diamondhead POA Board has attempted to give members an important role in the planning of the future of Diamondhead by having more open

board meetings.

These may be discontinued due to the behavior and actions of a few, and the board will have to reconsider its position on open meetings and limit them . according to the by-laws.

BOAT TRAILER **OWNERS**

you must move your trailer from the parking lot. There is trailer space available at the old stable grounds north of the water tower. You have 30 days or your trailer will be towed off. Please call Syble Paul at 255-1900 for information.

KREWE OF D'HEAD

The coronation ball honoring 1996-97 King Ed Rosenhauer and Queen Diane Calhoun will be in December at the Isle of Capri Casino Crowne Plaza Resort in Biloxi. Looks like this year some Mardi Gras festivities precede Santa Claus.

SANTAS WANTED

Woodland Village is asking for volunteers to bring Christmas cheer to the residents in the form of chorus groups, dancers, clowns, etc. A hand held, a story read, and lots of smiles and hugs mean an awful

lot, too. Mrs. Jackson, activity director, sincerely thanks Ruth and Charlie Oliviers Dance Club, Brownies Troops 269 and 242 and Bay Scouts Troop 20 for all their help.

Diamondhead church anniversary Nov. 17

monaneaa Community Church will celebrate its 15th anniversary at the 10 a.m. worship service. All members, former members, friends of the church and the public are invited.

The church's history began when Dwyn Mounger, a retired Presbyterian minister, headed a steering committee to explore the possibility of starting a mission church at Diamondhead. On April 15, 1980 the committee met with the South Mississippi Presbytery. Members of the original committee include Mr. and Mrs. George Love. Mr. and Mrs. Luther Grice, Mr. and Mrs. Fred Roseman, Mr. and Mrs. Harold Marshall and Mr.

and Mrs. Robert Simono.

The group originally met in the Aloha Room of the Diamondhead Country Club. Joe Finley, Elder Emeritus, reminisced, "There were a few occasions when the Aloha Room was: not available, and we had to meet in the bar of the club." Land for the new church was purchased Feb. 15, 1981, and the first service held in the new church was on Nov. 15, 1981. The congregation affection ately called their new church the "Little Brown Church in the

Wildwood." Other landmark events in the church's history include the / 1990 building of a new sanctu-

Youth fight

On Sunday, Nov. 17, Dia- ary, in 1995 an administration and education building was completed, and this fall a new memorial garden was dedicated.

Rev. Mounger served as minister of the church during its first years and was then followed by Mark Jumper, a seminary student from Columbia Seminary in Decatur, Ga. On July 13, 1986, Dr. Paul Richards began his ministry at the church and on Feb. 22, 1987 became the permanent minister.

A celebration providence dinner will also be held Monday, Nov. 18. A history of the church will be presented that evening. Reservations are required for dinner by calling 255-5556.

Annual Harvest Dinner

Christ Episcopal Church will hold its 48th Annual Harvest Dinner Thursday, Nov. 21 at Virginia Hall from 5-8 p.m.

It was in 1948 that seven women of Christ Episcopal Church prepared a meal for about 250 people of all faiths at the North Beach home of Mr. and Mrs. Charles Breath This meal began the tradition of their annual fund-raising

Since then the people of the Bay-Waveland area have developed a custom of having two Thanksgiving dinners the first in mid November at Virginia Hall and the second with the rest of the country on the national holiday.

Ballet ensemble members

Coast Youth Ballet Ensemble 1996-97 members include, front row from left, apprentices Christine Taylor, Brianna Murphy, Emily Mahler and Michelle Lady; second row, junior company members Meghan Williams, Charanda Necaise, Page Harder and Carrie Wilcox; back row, senior members Courtney Pitalo, Sarah Johnson, Dara DeGerolamo, Amelia Taylor, Rebecca Hudson, Casey Bernard, Abbie Favre, Dana Fillingame and Christie DeRussy. The ensemble is presenting performances this week in the Bay-Waveland elementary schools, and will present its new holiday production called Tales from the Ballet" Saturday, Nov. 23 at Bay High Auditorium in Bay St. Louis at 7:30 p.m. There will also be a special one-hour young children's version presented at 11 a.m. with discounted tickets for children and senior citizens. Tickets for both shows are available at Applause! Dance Wear in Gulfport and at Anthony's Men's Wear, Bookends and the Coast Youth Ballet Academy in Bay St. Louis. Prices range from \$6 to \$12 for the evening performance and \$3 to \$6 for the 11 a.m. show. For information, call 466-2625.

Coach

Continued from Page 1A

supplement of \$1,800.

The board on Monday voted to appoint a five-member search committee to be chaired by superintendent Mike Reed. Reed will not have a vote on who the committee recommends to replace Shaw.

The 4-0 vote (board member Frank Perniciaro was absent). on Shaw, Boos and Seymour drew to a close a difficult season at Bay High. Shaw was hired on an interim basis when Bill Thomas abruptly resigned one week before the start of fall practice.

Thomas had been hired in June to replace Walt Esslinger, who resigned last spring

Boos and Seymour stepped forward when it became apparent Shaw would have to enter the season with only baseball coach Steve Elizey and former baseball coach Joey Brockhoff as his only two assistants.

Before the vote Monday, Board Secretary Richard Flowers publicly expressed his grati-tude to Shaw, who was not present.

In another coaching matter, the board went against Reed's recommendation and tabled a vote to immediately implement new job descriptions for the entire athletic staff, including head and assistant coaches and the cheerleader sponsor. Also

tabled were new evaluation forms for the athletic personnel. The revised job descriptions are the brainchild of consultant Lindy Callahan, a former Gulf-port High School coach who is being paid \$200 per day to eva-luate the Bay High athletic

program. One of the more significant changes Callahan recommended is that Bay High Athletic Director Debbie Triplett be required to attend every boos-ter club meeting for every sport. Triplett also serves as the women's basketball coach. Reed said in other districts

"it's not unusual for athletic directors to attend all booster club meetings.

But board member Bryon Griffith disagreed, saying the mandate is quite a lot to ask for, and a lot of work.

"My hesitation is (for the new descriptions) to become effective immediately." Griffith said. "I want to hold a special conference with the stackes concern

ing the changes."

He added there are several additions and modifications to the job descriptions.

Board Attorney Ronnie Artigues Jr. reminded the board the coaches are under contract. and that any mid-year changes may present potential problems."

In other matters: The board denied a re-

quest by the senior class to hold commencement exercises at the Mississippi Gulf Coast Coliseum in Biloxi. Traditionally. graduation has been held at either the football field, auditorium or gym. It has also been a long-standing tradition seniors vote on the venue.

After some problems last year, the senior class appeared before the board earlier this fall to request graduation be held at the Coliseum. The board vetoed that request, but did allow the seniors to select from school

"I have no problem with any of the facilities we have," Board President David Turcotte said. The senior class should decide.

He added the first priority should be the field, and "then

—The board awarded a con-tract totaling \$15,720 to Waste Management for disposal Services. Waste Management was low bidder. BFI currently holds the contract.

and then declared as surplus several Wang computers do-nated to the district last year by then Hancock County Chancery Clerk Mike Necaise. Assistant Superintendent Kim Stasny explained the computers were never formally accepted as district property and have been stored in a closet his his life

She added that Apple Computers has a program "where we can get \$1,800 of software" in exchange for the Wang computers.

40,000 workers in Mexico are dependent on his shipping, and scheduling is very critical."

Humphries appeared before the Port and Harbor Commission on Tuesday seeking some relief to the dredging dilemma. especially now that winter is approaching and the north winds tend to keep the water dangerously shallow.

The site of his main concern is where the Pearl River meets the Port Bienville shipping channel. A ship ran aground there last week and others have had problems getting through.

The problem is the sand in that area is hard," Humphries said. "It's almost like concrete." In some other shallow areas,

he added, ships are able to use full horsepower to plow through the channel bottom, but not at that location. He said the sand is even hard enough to dent a ship's hull.

Humphries said past solutions have been "hodge-podge." In some years, Linea, Atlas Powder Co., which imports thousands of tons of munitions for its products, and the P&H have shared in the dredging

Last year, the channel was dredged because a Louisiana company needed the fill.

The question is can we move ahead to do a rush job to get through the winter." Hum-phries said. "We need to look at the possibility of a long-term

"The cargo (shipped through the port) is good for stevedores, and the Port gets a cut. We are all losing something."

P&H Chairman Dave McDonald echoed Humphries concerns, noting that as long as there is strong north wind, we will have this situation.

Humphries asked the board for \$5,000 to help cover the estimated \$15,000 cost of dredging the area in question. He said he will also petition Atlas for \$5,000, and that Linea would pay for any cost overruns. The area will be dredged to a depth of about 12 feet.

The commission readily agreed to Humphries' request, and promised to begin exploring long-range solutions, including the possible purchase of a dredge. The P&H already has a dredging permit, and four "spoil" areas on site to place the dredged material.

"We have to do it now," Commission Treasurer Louis Brown said. "(Any potential problems in that area) could put Linea out of business, and put us at liability. We have a responsibility to maintain our depth."

Humphries also asked that

the road to Linea be payed. "It's a bit of an embarrassment to bring in customers and they find us at the end of a dirt

road," he said.
"Maybe we could divert one of the asphalt trucks (used to pave the roads at the nearby Well-man plant site), joked Humphries, a native of Australia who opened Linea at Port Bienville 18 years ago.

"It is a county problem," he said. We have a lot of important people coming in and out." In other matters:

-The commission agreed to act as an agent for the sale of the old Blue Streak Shipping prop-erty at Port Bienville to Gulf Concrete, which has offices in Gulfport, Bay St. Louis and Picayune. The company is also involved in the Wellman construction.

When Blue Streak closed several years ago, Peoples Bank held the lien. The P&H had agreed to help the bank locate a buyer for the site.

P&H Executive Director Hal Walters said Gulf Concrete locating at Port Bienville is what "we hoped would happen when Wellman" decided to built at the

"They are bringing other industries to Hancock County," he said.

- Commission members discussed the possibility of constructing 12 new hangars at Stennis International Airport. Airport Director Bill Stovall estimated the cost to be in the neighborhood of \$170,000. The hangars would house singleengine and some two-engine planes, and rentals would be \$180 per month.

He also proposed raising the

current hangar rents to \$200 a

The commission granted Stovall approval to begin exploring ways of funding the hangars, including the possibility of applying for a state Airport Bond.

Gene Phillips, owner of Phillips Aviation at the airport, said the hangars are needed.

"I have eight confirmed people on a waiting list for hangar space," Phillips said. "We ha ven't had enough of hangars in a long time. It's a benefit to the airport in every way if we can get them in there.

Phillips admitted his company, which is the Fixed Base Operator at Stennis, has struggled financially since the casino charter business dried up with the grounding of Express One in June of 1995.

- Stovall said Express One finally paid the \$23,000 owed to the airport since the carrier's grounding. Express One is operating again, and Stovall said the company is exploring the option of beginning scheduled passenger service.

- The marketing of the airport was also discussed. Walters said the project is being explored with the private sector, but "seed money" is needed "to get it off the ground."

- The contract for the construction of underground utilities at Wellman was awarded to SCI, of Gulfport, the same company that built Highway 603. SCI was the low bidder with a bid of \$299,400. GMR Construction was next low bidder at \$438,758.

Wellman officials said this is for only the front part of the site, but that much more will eventu-

ally be needed.

Expansion

Continued from Page 1A

production of work crews. He suggested the road department Newell said she and other citizens, "started fighting this should have someone to repair or change tires at county barns thing since 1986, and it's the and replacement inventory on first time we've ever won."

She said the citizens' groups sitll remain opposed to garbage coming into Pecan Grove from New Orleans and Mobile and lus school bus from the Hancock Agenty School District It would be used to haul inmates to work plan to appeal to the Harrison County Solid Waste District to stop it.

She estimated 900 tons a day is brought in from News Orleans, 3,000 daily from nearby St. Tammany Parish, and Alabama.

Pecan Grove also accepts waste from Hancock County, and charges \$19.50 a ton to accept the county's househould garbage. The county's two-year contract with Waste Management was renewed last July and expires in January of 1998.

The DEQ had recommended approval of the modification of the existing solid waste permit

to allow for the vertical expansion of the landfill, as well as the issuance of an air permit to allow constructionof gas extraction wells that control odors at the landfill.

In a prepared statement faxed to the Echo, Gerald Allen, president of Pecan Grove Landfill, said, "Our next step is

through the appeals process."
Allen said, "We certainly understand the push by citizens in the area to prevent this expansion. However, the resiout Harrison County still need safe garbage disposal...Without this expansion, we will not be able to continue to accept Harrison County waste at the Pecan Grove landfill.

He continued, "Waste Management is currently evaluating what alternatives are available, including filing an expected appeal of the decisioon within 30 days."

sonnel handbook that spells out exactly when road crews can take vacation or comp time, and dictates a chain of command for putting in their requests. Bobinger said he was particularly worried about the work crews coming up short because hunting season is approaching. County Administrator Tim Kellar told Bobinger that the county is in the process of adopting a personnel handbook that will outline employees' leave time and benefits, establish a procedure for filing grievances and requesting vacation or comp time, and spells out job responsibilities. Bobinger also asked supervisors to deal swiftly with boats left stranded on the beach. He said the abandoned boats impede equipment used to spruce up the beach. Bobinger said work crews and equipment are

also hindered by cars left stranded alongside the roads, particularly in Shoreline and Bayside Parks. Supervisors passed a resolution that will serve notice the boats or vehicles will be impounded, and the owners

charged the costs or fined. They plan to publish notification in area newspapers, then give owners 30 days to remove the boats or vehicles. Bobinger said the road de-partment was also having trou-

ble getting street signs, and supervisors will request the county purchasing agent to get costs for the county to make its own or to use prison labor. Bo-binger suggested putting road signs down in concrete because he said some residents are pull-

ing them out of the ground. He said he also wants to look

Business offers student incentives

Several incentives are being offered to Hancock High School students who have earned an honor roll report card and received perfect attendance each nine weeks during the 1996-97 school year.

Jim Quakenbush, co-owner and operator of the Exxon Subway Station on Hwy. 603 off I-10, approached school officials with a plan to reward as well as challenge students in grades

The "Scholastic Achievement Program" rewards students who have earned A's and B's on their report card for a nine-

Thinking about going into business?

If you have always dreamed of owning your own business, but have questions regarding how to get started, licensing, taxes, employees, financing, etc., then this is the workshop for you on Tuesday, Nov. 19,6-8 p.m. at Gulf Coast Business Technology Center, 1636 Popps Ferry Road, Biloxi. Fee is \$15 in advance or \$20

at the door. Instructor is Adele Lyons, Gulf Coast Business Technology Center.

week grading period with a coupon good for a free hot dog, popcorn and drink, as well as an opportunity to enter their name in a drawing to win four quarts of oil or a 12-pack of canned drinks. There will be one winner in each grade each nine

Students who have not been absent for the first nine-week grading period receive the "Perfect Attendance Coupon" entitling them to a free 6" subway (of choice) with the purchase of a large drink. This coupon will offer a different incentive each

The Scholastic Achievement Frogram has been designed in a one for one, two for two, three for three and four for four format. Students receiving another honor roll report card the second nine weeks receive two coupon instead of one. The third nine weeks this same qualifying students will receive three coupons, the fourth, four coupons. Thus enabling students to receive up to 10 cou-pons by the end of the school

The challenge is to the stu-dents who did not qualify the first nine weeks. They have an opportunity to qualify the second nine weeks.

Bank names new officers

Thirteen new officers were named by the Hancock Bank Board of Directors following their monthly meeting. They

Edgar C. Appel has been promoted to assistant credit officer. Appel joined Hancock in 1993 and served in the Indirect Finance Department as an adjuster. He is a graduate of the University of Mississippi and holds a MBA from the University of Southern Mississippi.

Michele L. Chaffin has been named assistant personnel officer. Chaffin joined the bank in 1980 and currently serves in the **Human Resources Department** as a supervisor of payroll responsible for salary administration. She attended Mississippi Gulf Coast Community college and has completed numerous American Institute of Banking

Michael E. Cook was promoted to assistant business development officer. Cook joined Hancock in 1991 and currently serves as a lender at the bank's Courthouse Road office. He attended Mississippi Gulf Coast Community College, William Carey College and currently attends the University of Mississippi School of Banking.

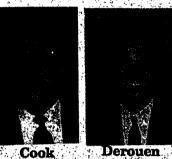

Darney J. Derouen II was promoted to assistant credit officer. Derouen joined Hancock in 1990 and presently serves as manager of the Credit Department. He holds a bachelor of science degree in finance from the University of Southern Mississippi.

Jan L. Estrada was promoted to trust officer and presently serves as an employee benefit analyst in the Trust Department. Estrada formerly worked for Metropolitan National Bank and joined Hancock Bank in 1990 upon the merger of the two financial institutions. A graduate of the University of Southern Mississippi with a bachelor's degree in accounting, year course study at the Cannon Financial Institute in Athens, Ga. She is presidentelect of the Exchange Club of Orange Grove.

Stephen M. Gainey was promoted to assistant branch officer. Gainey joined Hancock in 1994 as a management trainee and has worked in various areas of the bank before being recently transferred to the

House hunting tips offered

By Basil Kennedy

Buying a home is the single largest financial purchase most people make. For any buyer, especially the first-timer, the last thing you can afford is making a mistake that could cost you plenty later on. Unfortunately, it happens frequently. Here are a few of the most common mistakes.

The first is not seeing a lender before you've started househunting. Seeing a lender first will give you a good idea of what you can afford, and the types or mortgages available. A second mistake is buying the first house you fall in love with. It is hard not to become emotionally involved with a house that at first glance fits the picture of a dream home, but don't let emotion overrule cool thinking.

The third common mistake is not looking beyond the house

Now Cashes Checks! 466-4665 • NEXT TO POST OFFICE • BAY ST. LOUIS

itself and considering the neighborhood. A house is more likely to maintain value if it is in a defined neighborhood. A defined neighborhood is one of at least a dozen blocks bordered by a park, river, or other boundary that helps give the area a clear definition.

Looking for visually unattractive structures: a radio, tv, or cellular phone tower for instance, is also important. And then there is the obvious: are schools, shopping, day care, movies and other everyday needs handy?

Buying a home is not a process you want to rush. Careful planning and thinking upfront is necessary to guard against making a mistake that may prove to be very costly later.

Basil Kennedy is Community Bank president with Union Planters Bank in Bay St. Louis He is a graduate of Ole Miss. received his MBA from LSUNO and is a graduate of the Banking School of the South. Kennedy is a lifelong resident of Hancock County and has over 20 years banking experience.

State retirement system schedules free seminars

Thirteen free seminars for retirees of the Public Employees' Retirement System of Mississippi (PERS) have been scheduled throughout Mississippi during November.

For the first time, there will be two seminars on the Mississippi Gulf Coast on the same date — the usual location at the Jefferson Davis campus of Mississippi Gulf Coast Community College in Gulfport, and a second seminar at the Jackson County campus to better serve the needs of retirees living in

subjects of interest to retirees. including the annual cost-ofliving adjustment (the 13th check), insurance programs available to retirees and longterm care.

All sites are handicapped accessible, with available parking. The seminar in Gautier begins at 9 a.m. All others begin at 1:30 pm. and will last approximately 11/2 hours.

Refreshments will be available. All retirees and others interested in issues relating to

the Pascagoula-Moss Point retirees are invited to attend.
The local seminaries Wednesday, Nov. 20 in Room G-121 at the Jefferson Davis Campus of Seminars are held twice a Mississippi Gulf Coast Comyear to provide information on munity College in Gulfport.

Check Off Everything You Want. Then Check With lancock Bank.

70 locations & over 100 ATMs.

Logo contest for students

The Mississippi Gulf Coast Advertising Federation is tak-ing student entries for a logo contest. The organization, previously known as The Missis-sippi Gulf Coast Advertising Club, changed its name in Sep-tember and is holding a student competition for a new logo

design.
The logo should be one that will work well in color and in black and white print. However, the design must not exceed two colors. Students may want to apply the design and present it on letterhead and envelope.

The contest is open to all part-time and full-time undergraduate students at community colleges and universities. For information Deadline for entries is Dec. 16. nault at 865-4572.

If a logo is selected from the student entries, the winner will receive \$100 cash and a printed piece for his or her portfolio. The winning logo will be announced at the Gulf Coast Advertising Federation's February meeting Thursday, Feb. 6.

Mail all entries to Education Chair Margaret Chenault at USM-Gulf Coast, 730 East Beach Blvd., Long Beach, MS

Sites

Continued from Page 1A

ter Act also requires that any discharge of dredged or filled materials into "waters of the U.S.," including wetlands, must also have a DOA permit issued

by the Corps."

The Corps pointed out that since 1993 several agencies have been involved in the permit evaluation process of gaming facilities currently located in coastal Mississippi. Besides the Corps' Mobile District, agencies involved included: RegionalV of the Environmental Protection Agency (EPA), the U.S. Fish and Wildlife Service, the National Marine Fisheries Service, along with Mississippi's Office of Secretary of State, the Department of Marine Resources, Department of Environmental Quality, De-partment of Fisheries, Wildlife and Parks and the State Histor-

ice Preservation officer. In 1995, the Mobile District Engineer and the EPA Regional Administrator, with the full support and assistance of other federal and state agencies, agreed to develop informal maps of Harrison and Hancock Counties, that would display coastal areas that, for a spectrum of environmental reasons, the federal agencies would likely have no objection, some objection, or great objection to the siting of casinos and their related development," the report pointed out.

Draft maps attached to the report break down possible sites into three zones and areas of concern are designated by different colored lines. Green lines designate no objection; zones colored light purple show moderaate concern; and zones set off by tan lines are areas of "most; concern."

The proposed \$200 million Casino World development off the Diamondhead Exit of Interstate 10 lies in an area of "most concern.

According to the report, "These zones are likely to be considered unsuitable for casinos and related development. These zones typically display environmental sensitivity and are likely to support nationally-significant plant and animal communities; or have little or no developed infrastructure with limited access. Because of the environmental sensitivity of these areas, federal agencies individually and cumulatively, would be significant."

Circus Circus development off the Kiln-DeLisle exit of I-10 lies in an area of "moderate concern," which denote areas with constraints that may preclude casino development," the report

It continues, "Constraints may include adjacent wetlands, residential waterfront and areas with other local and state restricitions, such as zoning laws, incompatible coastal zone use designations or other environmental concerns.

"Federal agencies generally ment in these zones unless documentation of compatible sit-The proposed \$300 million ing is proven. At a minimum,

before a DOA permit decision is made, an alternative analyses and mitigation will be required if "waters of the U.S." are impacted." the report said.

The Corps and EPA made a point to emphasize the draft maps "are informal, not etched in stone" and are open to public scrunity.

The report said, "The draft maps are not to be construed as the final word on whether a DOA permit will or will not be granted for a casino in the coastal area delineated with any of the three colors. An aplicant has the right to request a DUA permit for a casino and its related development in any coastal area deemed by the Missis-

Continued from Page 1A

sippi Gaming Commissin to be a legal casino site."

The agencies are soliciting comment from the public, other federal and state agencies and officials, Indian tribes and other interested parties. They said comments received will determine whether to modify or formally publish the maps, and will determine whether it is necessive to hold one or more public workshops on the proposed zoning maps:

Correspondence should be addressed to: "Gaming Facili-

ties Development in Coastal Mississippi and mailed to either District Engineer, ATTN Regulatory Branch, U.S. Army Engineer District, Mobile, P.O. Box 2288, Mobile, AL 36628-0001; or Regional Administrator, Region 4, ATTN: Wetlands, Coastal and Water Quality Grants Branch, At-lanta Federal Center, 100 Ala-bama Street, S.W. Atlanta, GA.

Comments should be received at either office no later than Nov. 22, 1966.

LIVE AT GRAND CASINO G

Wellman

and Wellman are pleased they decided to locate in Hancock County and have enjoyed extensive cooperation from local and state officials since the project

Woody said Wellman was bucking the trend by deciding to locate in the the United States when similar manufacturers are going to Mexico and South America.

Woody explained the decision to select Adams was made because the bidding process had already caused delay in site pre-paration, and Adams had "more equipment, more people and more experience, for the job. He said soils at the site were

different from what they found in original borings, and its im-portant the foundation that the huge plant will rest on be prepared to specifications.

"This represents a huge investment for Wellman, We can't take any kind of technical risk," said Woody. "We can't make a short-term decision tht would jeopardize the project or affect the quality of operation." Woody said he had informed

Adams to use as many Hancock people and equipment as possible for the job, and Adams has promised to do so. District 4 Supervisor Steve

Seymour said all the supervi-sors were hearing from citizens critical of the decision to choose a Louisiana firm for the work.

"White flags are going up-everywhere. You understand. on a political standpoint

for this project." Moran said he understood the decision to hire Adams was made at a meeting of the Port and Harbor Commission on a Friday afternoon.

have done this project. Loui-siana didn't put up any money

"But, we weren't informed of it until Monday morning. The deal was over and done with before we knew it. Steve and I were taking the heat all weekend I don't want this to happen again," said Moran. Moran said he would like to

see the remaining county bond money used to prepare access roads, and he wants Hancock County firms to get the work.

Dickey Joe Ladner, repre-

senting TCB Construction of Poplarville, one of the unsuccessful bidders for the site preparation, claimed his firm could have done the work. He wanted Wellman to rescind its decision to select Wellman.

"Let's sit down and crunch the figures," said Ladner.

Woody said the decision had already been made, and Well-man will stick with Adams.

Woody also released an itemized list to supervisors showing that Wellman had already pumped more than \$11 million into the local economy for various work at the site, and a num-ber of local firms have won contracts.

Children's Art Festival a big success

To celebrate art and the budding young artists in the community, North Bay Elethe Children's Art Festival.

This year, the event was held in conjunction with A Place of Art on the OLG Community Center grounds Although this was the first time the two events were linked, North Bay has sponsored the art festival for the past three years.

Many people volunteered their time and creativity to help make this an event to remember.

Junior artists were able to create close to 20 separate crafts, including glitter jars, newspaper hats, tissue paper butterflies and many others.

A favorite of the event is a "Young Artists' Celebration Painting", created by the children who attended. Each child was allowed to paint whatever they wanted on a large canvas Thompson. The painting now

hangs in the office of North Daigre of Bookends.

Bay Elementary.
Storytelling was provided mentary recently sponsored , by Karen Rains, music teacher dance with Mandy Richardson at North Bay, and Susan and Dana Kimmel.

Kids also enjoyed creative drama by Missy Marshall, and

The Bob Harmon Rootball Forecast

NFL Forecast for Sunday and Monday Nov. 17-18

**Arizona, 17—N.Y. Giants, 10 (Sunday) Two weeks later, the rematch of the Cardinals-Giants battle in N.Y. The Cards better have some fun now, because in the final five weeks they face Philly twice, Minnesota, Dallas and Washington.

**Buffalo, 26—Cincinnati, 13

Now it's crunch time, and with games still to come against the Colts, Dolphins and Chiefs, the Bills can't let up in a contest like this one. These teams haven't faced each other in five years. Carolina, 20-**St. Louis, 9

The Panthers could do no wrong against the Rams last month and routed them 45-13, Carolina's highest score in its brief history. The Panthers should easily avenge last season's St. Louis sweep.

Denver, 28—**New England, 14

We once imagined great battles between Elway and Bledsoe, the

present and future. In a '95 matchup John threw for only 39 more yards than Drew but produced 34 more points. N.E. still needs **Detroit, 27—Seatlle, 7

If the Lions have scouted the Seahawks correctly — not hard to do — they'll run all day and risk only tired running backs. The score of their last game, in '93 — 30-10 Detroit — sounds about right.

*Indianapolis, 31—N.Y. Jets 16

Not even the first lightning delay in NFL history could help the

College Highlights for Nov. 16

In Boulder, Colo, on Saturday, the Colorado Buffaloes should win a close one over Kansas State—a big game in the Big Twelve, with echoes of last season. Exactly a year ago in Manhatten, Kan., Kansas State hosted Colorado in what the K-State sports information department was calling the biggest game in the Wildcats' 100-year football history. Kansas State had lost only to Nebraska, had risen to No. 7 in the Top 20 and had the nation's top-ranked defense. The Wildcats were dreaming of their first appearance ever

in a game on New Year's Day, the Cotton Bowl.

But Colorado wanted the Cotton, too. After Eric Hickson's

1-yard TD run gave K-State a 17-13 lead late in the game, Colorado QB John Hessler, who passed for 314 yards on the day, drove the Buffs down the field and hit James Kidd with a 20-yard TD pass with 1:04 left, thwarting K-State's man-to-man coverage. A Colorado fumble recovery in Kansas State's end zone 19 seconds later numbed the crowd and sealed the Buffaloes' 27-17 win, and K-State went to the Holiday Bowlinstead. With a five-point win this week, Colorado will lengthen its unbeaten streak against K-State to 12 games (11 wins and a '93 tie) since the Wildcats' last win, in

Penn State and Michigan play another big one in the Big Ten in Ann Arbor; Mich.; where we hope there's no snow. Last year in State College, Pa., 19th-ranked Penn State upset 12th-ranked Michigan 27-17, rushing for 245 yards against the nation's No. 1 run defense and turning a faked field goal into a TD to cinch the victory. The game took place a few days after a freak blizzard, and some

balls which brought about an angly in ger-waggin desire from a Nittany Lions coach Joe Paterno, Michigan fans won't need to respond in kind, because the Wolverines will ice this one.

In a crucial game in the Atlantic Coast Conference, North Carolina visits Virginia, and we're picking the Cavaliers by just two points. In their 95 matchup in Chapel HIII, N.C., the Tar Heels up-set No. 9 Virginia 22-17, their first win over a Top 10 team in 13 years. Once again we'll watch two of the nation's best rushing defenses at work.

And despite their struggles this year, we like the Miami Hurricanes over Virginia Tech at the Orange Bowl in the Big East. Last year in Blacksburg, Va., the Hokies ended a string of 12 straight losses to Miami with a 13-7 victory, but on Saturday Miami will win surprisingly easily.

Jots against the Colts in Week Two, as they make mistaks after mistake in a 21-7 loss. N.Y. must throw to keep the rematch close.

**Kansas City, 24—Chicago, 17.

These teams are in the midst of some tough games, the Chiefs having faced the Broncos, Vikings and Packers, and the Bears battling the Lions and Packers next. Chicago is just as tough for K.C.

Miami, 21—**Houston, 12

Twenty years after the Dolphins and Oilers first met and four years since their last dance, a 19-16 Miami win, this series is tied 11-11. The Oilers run well, but they won't against this defense.

27-24 in N.O. and 19-14 at home. The Falcons have fallen far since then, but if they put the ball up they'll be in this game.

**Philadelphia, 25—Washington, 21

The now-sidelined Rodney Peete threw for 269 yards and two TD's in the season opener as the Eagles won their eighth straight from

the Redskins, 17-14. Washington still needs a lot more defense, **Pittsburgh, 34—Jacksonville, 10
Looking nothing like a Super Bowl team, the Steelers began the year with an embarrasing 24-9 loss to the Jaguars — their second in three games with the upstarts. Think Pittsburgh wants this

**San Diego, 22—Tampa Bay, 15
This game may be closer than it looks, because the Chargers aren't

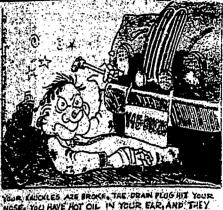

exactly an offensive juggernaut, and the Buccaneers have been known to muster some pass defense. Still, S.D. is 6-0 against T.B.
**San Francisco, 25—Baltimore, 18

Scheduled between big 49er games with the Cowboys and Red-skins, the Ravens may catch S.F. off guard. Or not. The 49ers' weakness is their secondary, so aerial assault is Baltimore's best

Green Bay, 27—**Dallas, 23

(Monday) The Cowboys certainly will know where they stand after games with the Dolphins, Eagles, 49ers and Packers. Dallas's winning streak against G.B. will end at seven (the '95 NFC championship research) ship game).

BETWEEN THE LINES

By Richard Meek

Perhaps it is only appropriate for a school that calls the Mississippi Sound a property line should excel in swimming.

St. Stanislaus' swimming team recently completed its most successful year in school history, finishing sixth in the state meet and winning the prestigious Biloxi Fall Invitational. Under first-year coach Joe Gex, the Rocks also were runnersup in the South State meet and third in a meet that included perennial swimming powers Tupelo, Cleveland, Gulfport and Columbus.

"I took over a solid program with a lot of talent in it," said Gex, who was named Coach of the Year.

"We got a boost with some new athletes and just put them in the right places," he said.

in the right places," he said. SSC was 3-0 in the regular season, with victories over Harrison Central, Biloxi and Ocean Springs. But the season's turning point may have come in the Biloximeet when the Rocks outdistanced 21 teams, and won a team title of that significance for the first time in school history.

"Early in the season, with the kids it was I want to swim this and that," Gex said. "I simply put them where I thought they would help the team the most. After a while, they saw that the team was winning with them swimming the events I put them in.

"I constantly reminded them a team title was more important than an individual title. After it became a part of their thinking, they responded."

At the South State meet, the Rocks were tied with Gulfport going into the final event, which happened to be the 400-yard relay, SSC's Achilles. The Admirals pulled away, forcing the Rocks to be consoled with a

Games this week — Nov. 16 — will be in Poplarville at the junior college. The first game will be at 9 a.m. Poplarville's homecoming is at 2 p.m. with the last game at 8 p.m. There are still three undeflated teams in our Pee-Wee Longue. The 7 and 8 year old PRC Baiders, the 3 and 10 year old PRC Baiders, the 3 and 10 year old Bay St. Louis Tigers.

Charles injured

SSC swim team outstanding

school record second place

"We were tired and let Gulfport get a solid lead that we couldn't make up," Gex said.

couldn't make up," Gex said.

In the South State, Robert Richmond won the 50-yard freestyle and 100-yard backstroke events, Scott won in the 50- and 100-yard freestyles, Jeremy Clark won the 100-yard butterfly, Brian Finila won the 200-yard freestyle, and the team of Johnson, Richmond, Finila and Todd Pederson won the 200-yard freestyle relay.

At the state meet, another poor performance in the 400-yard relay kept the Rocks from a top three finish. Cleveland won the title, and Tupelo was second.

"It was the same scenario as the South State meet," Gex said. "We just had a slow relay. The kids were tired and the other teams just took advantage of that."

In the state meet, Richmond finished fourth in the 100-yard backstroke and fifth in the 50-yard freestyle, Flores was eighth in the 200-yard individual medley, and the 200-yard freestyle relay team of Johnson, Richmond, Finila and Pederson finished fifth.

"The kids dropped their times all year, and that's great," Gex said. "It gives them something to shoot for next year." Friday Forecast finished

1-1 last week and 19-9 for the year. Some final gridiron observations:

— The officiating at the Bay

High-St. Stanislaus game was one of the worst officiated this reporter has seen in 20 years on the job. They were an embarrassment to every other official in the state of Mississippi. Be assured, no team was hurt more than the other, but the incompetency stripped the game of its excitement.

— Incidentally, where were the fans for what is supposed to be one of the biggest games of

tem 5W30, 10W30, 10W40, 20W50, SAE30, SAE40

the year?

Bay High coach Joe Shaw blamed himself after a fumble on a handoff at the Stanislaus one cost the Tigers the game. But he should not be so hard on himself.

James Benton is a great back, and Shaw was doing the sensible thing in trying to get the ball into his best players bands

into his best player's hands.

— Hancock High deserved a better fate. In a two-week span, the Hawks lost to Petal and Picayune, knocking them from the playoff picture.

This was a good Hancock team, with enough talent to win the district. Hancock's demise against Petal was the inability to move the ball at crucial times against a porous Panther defense.

It was unfortunate the Hawks were forced to play Picayune the following week. Nevertheless, congratulations to coach Rocky Gaudin and his staff for posting Hancock's best record (8-3) in several years.

— The county featured an abundance of outstanding running backs in Benton, Corey Charles of Stanislaus and Darryel Williams of Hancock. Charles' single season school record of over 1,300 yards is even more amazing when considering he was the lone Rock offensive threat.

Teams threw nine-man defensive fronts at the Rocks but were still unable to stop Charles. Only Bay High and Hancock had any success against the Rock senior.

— With a year of seasoning, Bay High junior quarterback Tank Williams should be listed as a major college prospect next season. Williams has size, a strong arm, and the intelligence to be a contributor to any college

— The coaching carousel is already beginning to turn. Currently, Pass High, Bay High and St. Stanislaus are all looking for head coaches. GULF COAST'S

Wolves outshoot Sharks

BY KELLY BLANCHARD

Outshooting Tallahassee 27-22, the Mississippi Sea Wolves beat the Tiger Sharks 4-1 on Tuesday night at the Mississippi Gulf Coast Coliseum.

The Sea Wolves set the tone early when Steve Yule was given a two-minute penalty for hooking in the first minute of play. But the Wolves' Jeff Roblicek scored a shorthanded goal with the assist by Mike Muller.

As the puck changed hands for the next 10 minutes, the shaky Tiger Sharks were penaltized two minutes for too many men on the ice.

Even Tallahassee's goalie failed to block a seemingly easy shot on goal by Mark Rupnow, which resulted in a 2-0 Mississippi Wolves' lead midway through the first period.

By the second period, the Tiger Sharks seemed to settle down as they came on the

attack. Sea Wolves goalie Sylvain Daigle met the challenge though, turning back several Tallahassee attacks.

But with seven minutes left in the second, Mississippi was given two minutes for slash-ing. Tallahassee's Cal Ingraham scored on the power play to halve the Wolves' lead to 2-

The third period opened with both teams picking up the pace and coming up short for

the next 14 minutes.

With Tallahassee on the power play with five minutes remaining, Muller, with the assist by Troy Mann, scored a shorthanded goal to give the Sea Wolves a 3-1 lead. Tempers grew short on both teams as the clock ticked down

and the checking got heavier.

Tallahassee attempted a comeback with a minute and a half left by pulling their goalie, but it was shortlived as Mississippi played excellent: defense.

With only 1.5 seconds left, Mississippi's Kelly Hurd got control of the puck and slapped one into the empty goal to make the final score 4-

Hancock Jr. Hawks win

Hancock Junior High inched a three way the for first place with Long Beach and St. Standard by defeating the Jumor Rocks 20 0.

Hancock, Stanislans and Long Beach familied with 6-2 David Seal's five yard run are the Hawks a 60 lead in the

first quarter. Hancock put it away with a air of fourth quarter scores. Kenric Lainer scored on a 10 vard run and Jeremy Peterson returned a fumble three yards for another score. Eric

Underwood added the two-

point conversion following Peterson's touchdown. This was an outstanding win for our hall club," Hancock ceach Michael Gaudin said. "Our kids came out and took it to them from the kickoff. It was a hard hitting game and I'm just happy for our kids and our

PRCC ends season with loss to Jones

Pearl River Community College's Wildcats ended their 1996 football season in Ellisville Saturday with a 21-0 loss to arch-rival Jones.

The loss was the eighth in the 10-game season for PRCC, but head coach Keith Daniels says optimism prevails for next fall with a solid nucleus of players returning to the Wildcat lineup.

Jones head coach Parker Dykes' Bobcats didn't surprise Daniels and his team.

"We anticipated a very physical and hard-nosed football game. And we got it," Daniels said following the shutout. to play like they do to win. In the early going, we did, but couldn't get any offense going and things went downhill after that."

The host Bobcats scored on short runs in the first, second and fourth quarters. Running back P. T. Jones scored first with a one-yard run with 12 seconds left in the first quarter, then followed with another tally with 1:44 left in the first half on a three-yard plunge.

Cedrick Killings ended the afternoon's scoring with a oneyard run with 36 seconds left in the game. Todd Davis was true on all three point-after kicks.

Early in the game, we had some offensive success, but that didn't last, and we couldn't get

confidence enough to give our defense a boost, Daniels said. The 1997 Wildcats will have

numerous defensive spots to fill as five key standouts will be gone from the lineup in Cornelius Griffin (6-4, 245, DL, Brudidge, Ala.), Rodney Thompson (6-5, 275, DL, Bassfield), Robert Gordon (6-0, 240, DL, Prichard, Ala.), Jon Hobson (5-10, 175, DB, Oak Grove), Olo Williams (6-0, 180, DB, Oak Grove) and Shannon Monroe (6-1, 227, LB, Thomasville, Ga.).

Monroe led all Wildcat tacklers with 57 stops, while managing 37 assists, four sacks and "Jones is a big, strong team . . . eight tackles for losses. Griffin that's their trademark. We had was the team's No. 2 tackler with 52 (29 assists, two sacks, 10 tackles for losses), while Thompson finished with 45 tackles, 23 assists, three sacks and 12 tackles for losses. Gordon had 38 tackles, 25 assists, two sacks, and eight tackles for

> Hobson led the team in interceptions with five, including 32 tackles and 11 assists, while Williams, who missed one game due to injury, managed one interception, 24 tackles and 28

> "They'll all be greatly missed," Daniels said. "They were the mainstays of our defensive unit. They rallied together and played well for us all season long."

Daniels singled seven defenders that will be depended upon heavily next fall, including Ricky Franklin (6-3, 205, LB, Columbia), Anthony Horne (6-3, 190, LB, Hattiesburg), Curtis Young (5-10, 180, DB, Purvis), Chad Young (5-8, 160, DB, Purvis), Zennis Wood (6-3, 205, DB, Poplarville), Leniwood Johnson (5-10, 175, DB, Pahokas Flancard Parastrices Grant

(5-11, 220, LB, Hattiesburg). Green shared much of the defensive limelight with 35 tackles, 33 assists and two sacks, while Franklin saw 46 tackles and 19 assists. Horne tied with Thompson for the team-high total in tackles for losses with 12, while managing 30 tackles,

kee. Fla.) and Demetrius Green

16 assists and two sacks. The Youngs, Johnson and Wood all played solidly throughout the season. Wood led all returning DBs with 21 tackles and seven assists, while Chad Young finished with 17 tackles and five assists. Curtis Young also played well as a kick

The Wildcat offense never reached its potential, averaging 205.1 yards per game (88.3 rush, 116.8 pass). Gone from the lineup next fall will be 5-11, 170 wide receiver Artez Edmond of Perry, Fla., who was the team's No. 2 receiver with 27 snags for 357 yards (13.22-yard average).

"Artez was our most consistent offensive player all season long. There's not many like him that come through here," Da-

But the team's top pass catcher — 5-11, 180 wide receiver Willie Ducksworth of Hattiesburg — returns in 1997.

Ducksworth shattered the PRCC record book with 50 receptions - breaking the old mark of 32 by Reggie Austin set in 1990. His 547 receiving yards was the second-highest seasonal total ever for a Wildcat, while the freshman from Hattiesburg High returned 11 punts for a 9.36-yard average in the 1996 season.

Freshman running back Bud Haralson (6-0, 200) from North Forrest High also returns next year. Haralson led all Wildcat rushers with 428 yards on 112 carries (3.83-yard average).

"Plus we feel very good about our offensive front next season;" Daniels added. "All our guys will be back and they've all got a lot of experience over the course of the season. With that experience and a solid spring practice, we should see lots of improvement."

Daniels and his staff will likely conduct spring drills in late February.

Whiplash...A Job For The **Doctor of Chiropractic**

You've had an accident. Maybe it involved your car and it's banged up. Now what? Well, let's see. Call the insurance company : and report the damages; take the car in and

get the necessary estimales; see if you can get a loner, get the job done. And try not to think

about the sore neck... or leg... or knee... or shoulder. The pain will probably go away in a few days.

Unfortunately, in the case of a whiplash neck injury, the symptoms may not appear for several days or even weeks follow-

ing the accident. By then, you may not even associate the stiff neck, persistent headaches, irritability or nausea with the real cause -that ben fender that has long since been __too many don't know this. repaired.

Many of the cervical disorders we've studied have been the result of auto accidents. Most of these injuries were due to whiplash incurred in rear-end auto collisions. The violent backward snapping, then the forward rolling motion of the head following impact

PRCC cagers' athleticism could push them to top

Richard Mathis' sixth men's basketball team as head coach of the Pearl River College Wildcats will be steeped in youth, but the veteran coach feels his squad's athleticism will more than make up for any inexperience.

A year ago his Wildcats finished 13-14 on the coattail of a stellar season in 1994-95 when PRCC took its first men's state championship since 1965.

Mathis has coaching experience on the senior college level at Mississippi State University in Starkville and Jacksonville State University in Jacksonville, Ala. He also coached at East Mississippi Community College at Scooba and Northeast Community College at

experience.

Kirkland hopes to

return PRCC to top

"I've been very pleased with our preseason workouts and scrimmage games," Mathis said. "Going in, I fully realized we'd be mighty young with 10 freshmen and two sophomores, but I feel our lack of experience will be compensated by superb

athleticism." Gone from last year's unit are standouts Donnie Johnson (6-7, 220) and Omar Nelson (5-11, 150). Both will be greatly missed, says Mathis.

"Our team doesn't have a Donnie Johnson this year, but from top to bottom, I feel we have more folks who will play and contribute than last year," he said. "Look for us to play at a much faster pace this year compared to the past couple of

season," Kirkland said. "She has made tremendous strides

Pearl River splits with Okaloosa

Pearl River Community College's men's and women's basketball units split with Okaloosa-Walton Community College in Poplarville Tuesday in M. R. White Coliseum.

The Wildcats rallied from a 34-33 halftime deficit to take a 72-66 season-opening victory and hand the Raiders their first loss(3-1) of the 1996-97 season. The Lady Wildcats saw OWCC's 6-5 center Shanita Owens sink, a basket at the final buzzer to keep the visiting Lady Raiders record perfect at 4-0 in a 59-58 nail-biter. The PRCC ladies record dropped to 0-2 (fell to Pensacola Junior College Monday).

PRCC's men sank the opening basket in their contest, but saw the Raiders push to a 26-10 advantage midway in the first half. The Wildcats took a 33-31 lead with 41 seconds left before intermission when Geremy Robinson of Baton Rouge sank back-to-back two-pointers, but OWCC's Chris Chapman sank a three-pointer at the 16-second mark to give the Raiders a narrow 34-33 edge at the half.

Robinson hit a three-pointer and a two-pointer early in the second half to push the Wildcats to a 39-34 lead, then Eric White of Hattiesburg bucketed another three-point play to push the lead to 42-40 with

16:14 left in the game. The Raiders battled back to a 48-all deadlock with 12:19 remaining, but point guard Todd Daniels, a West Marion High product, broke the tie with a lay-up and the Wildcats kept the lead for the remainder of the hard-fought contest.

In women's action, Pearls River pushed to a 33-27 lead at

Leading 27-17 with 7:28 left in the half, the Lady Raiders battled back to pull within two with 4:03 left.

PRCC's Leigh Slocum of Foxworth sank one of two free throws to open the second half scoring, but OWCC's Lenka Strelcova of Bratislava, Slovakia, tied things up at 33-all with a three-point play at the 16:52

A three-pointer by Missy Wheat of Forrest County AHS pushed the Lady Wildcats to a 38-35 advantage and seemingly gave PRCC new life. Over the ensuing four minutes, the Lady Raiders were held scoreless, while PRCC added four, but with 10:20 left, OWCC's Tangie Cooper sank a three-pointer to again deadlock the game at 42.42.

The Lady Raiders stayed within one point of their hosts until tying things up at 51-all at the 2:45 mark. The contest was tied two more times with the Lady Wildcats taking a 58-55 lead with 1:15 left after Carla James of Lumberton scored. In the final seconds of the game, OWCC guard Keisha Simmons drove the basket and missed her shot, but Owens was there for the tip-in at the final buzzer.

The Wildcats host Faulkner State Community College Thursday in M. R. White Coliseum at 7 p.m., then travel to Bay Minette, Ala. for FSCC's tournament Monday and Tuesday. The Lady Wildcats are idle until Tuesday's road trip to Niceville, Fla.

"BALLOT LANGUAGE FOR PROPOSED INSTIATIVE MEASURE, SERIAL NUMBER 8
State taw permits citizens to propose armendments to the Mississippl Constitution through the initiative process. Before the sponsors of an initiative begin their petition drives, the Secretary of State's office is required to publish the ballot title and ballot summary of the proposed initiative in a newspaper or newspaper of coneral osed initiative in a newspaper or newspapers of general circulation throughout the state. References: Section 273, Mississippi Constitution of 1890. Miss. Code Ann. Section 23-17-1 through 23-17-61. The earliest election at which this proposed initiative may be voted upon is the November 3, 1998 General Election. BALLOT TITLE

Shall persons other than dentists be sceneed by a board of dentisty to its and make dentures for the

BALLOT SUMMARY BALLOT SUBMARY

This initiative would: amend the Constitution to allow persons other than licensed dentists to examine patients, and it, make and sail dentures directly to the public; create a board of dentunty, consisting of five members appointed by the governor, which would regulate the practice of denturity, issue icenses, determine qualifications of applicants for licensure and make and enforce rules; and would mandate a ninety day, 100% money back warranty on dentures furnished by denturies.

ACTION: Notice of availability of the draft environmental impact statement (DEIS) for the Engine Technology Support for NASA's Advanced Space Transportation Program.

nology Support for NASA's Advanced Space Transpor-tation Program.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 et seq.), the Council on Environmental Quality reg-ulations for implementing the Procedural Provisions of NEPA (40 CFR Parts 1500-1508), and NASA policy and procedures (14 CFR Part 1216, Subpart 1216.3), NASA has prepared and issued a DEIS for the Engine Tech-nology Support of NASA's Advanced Space Transpor-tation Program. The proposed action by NASA is to test new and advanced engines, and components, and to modify facilities to support the programmatic develop-ment of future launch vehicles. NASA is considering a wide variety of liquid-fueled engines to accommodate the propulsion requirements of new space vehicle(s). The primary slase being evaluated for the testing activ-ties are NASA's Marshall Space Flight Center (MSFC) in Huntsville, Alabams, and John C. Stennis Space Center (SSC) in Hancock Courty, Mississippi. In addinter (SSC) in Hancock County, Mississippi. In addi-Edward's Air Force Base near Lancaster County.

California, is also being considered as a potential test site.

DATE: Comments on the Engine Technology Support for NASA's Advanced Space Transportation Program must be submitted in writing to NASA on or before December 30, 1996, or 45 days from the date of publication in the Federal Register of the U.S. Environmental Protection Agency's notice of availability of the Engine Technology' Support for NASA's Advanced Space Transportation Program DEIS, whichever notice is later. ADDRESSES: Written comments should be addressed to Dr. Rebecca McCaleb, Director, Environmental Engineering and Management Office, Code AEO1, Marshall Space Flight Center, Alsbarna 35812. The DEIS may be reviewed at the following locations:

(a) NASA Headquarters, Library, Room 1220, 300 E Street SW, Washington DC 20546.

(b) NASA, Marshall Space Flight Center, Library, Building 4200, Huntsville AL 35812.

(c) Huntsville Library, 915 Monroe Street, SW, Huntsville, AL 35901.

ie, Al. 35801. (d) Huntsville Library, Madison Branch, 181; Hughes A oad, Suite 8, Madison Al. 35758. (e) Trians: Town Hab; 101 Main Street, Trians; Al.

SUPPLEMENTARY INFORMATION: To meet the technical and programmatic challenges of developing it.

technical and programmatic challenges of developing at new space vehiclesty, key advanced schoologies in propulsion systems must be emplored. The activities would be designed to demonstrate the technology ma-strily levels recessary to reduce the development risk of

All test facilities at MSFC are located in the southern portion of the center and in the center of Redetone Arsenal's 15,400 hectares (38,000 acres). The closest private property is approximately 4 kilometers (25,000 acres) and is surrounded by 50,616 hectares (13,800 acres) and is surrounded by 50,616 hectares (125,071 acres) of accountical buffer zone primarily in western Hancock County, Mississippi and eastern St. Termmany Parish; Louisiana. Alternatives for this proposal include, but are not necessarily limited to: (1) alternative test sites; (2) test facility construction and modification options; (3) test engines and components; (4) cancellation of the proposal include.

engines and components; (4) cancellation of the proposed activities ("No action").

The DEIS considers potential environmental impacts

The DEIS considers potential environmental impacts associated with the activities and any needed construction or modification of facilities. The areas of Environmental concern include impacts on air quality and from noise. However, analyses indicate that air quality will remain within the National ambient Air Quality Standards at both MSFC and SSC, if MSFC and/or SSC were selected, no substantial environmental impact is articipated on biological resources, threatened and endangered species, cuttural resources, wetlands, and recreational or scenic areas. A public meeting will be held near MSFC at the Huntsville-Madison County Public Library, 915 Monroe Street, Huntsville Alabama on December 2, 1996, starting at 7:00 p.m. Another such meeting will be held near SSC at the Hancock County High School, 7084 Stennis Arport Drive, Bay St. Louis,

ol, 7084 Stennis Airport Drive, Bay St. Lo:

sissippi, on December 11, 1996, starting at 7:00

Comments were solicited at public scoping meetings and from federal, state, and local agencies, organiza-

and non-recess, states, and noted agencies, organiza-tion and members of the general public through a Fed-eral Register NASA notice published on November 20, 1994 (56 PR 61346), newspaper adventisements, and direct mailing to interested parties. Comments received have been address in the DEIS.

Written public input and comments on environmental issues of the proposed program are hereby solicited. These issues include, but are not limited to, test site and facility options, fuel and engine alternatives, and related contemporated concerns.

the Chestery Cleak of Nemock County, Nilesies tool or November 25, 1992 and proorded in Deed of Trust Sock 579 at Page 48; and proorded in Deed of Trust Sock 579 at Page 48; and .

WHEREAS, Hencock Bank expelled and authorizated Donale D. Piles as Subsituated Trustees in place and instead of Robert L. Genin, Jr. as was their right to do under the terms of said Deed of Trust. Said Substitution of Trustee being dated October 23, 1996 and recorded in Deed of Trust Sock 467 at Page 80; and find for record in the citics of the Chencery Clerk of Hancock County, Mississiplo on October 23, 1998 and recorded in Deed of Trust Sock 467 at Page 80; and some of Trust Sock 467 at Page 80; and some with Hancock Bank having been made in serms and conditions of said Deed of Trust and the enfire debt secured having been declared due and pryseble in accordance with the terms of said Deed of Trust, and the legal holder of said indebtedness. Hencock Bank, having requested the undersigned Substituted Trustee to execute the trust and set said lend and property in accordance with the terms of said Deed of Trust for the purpose of raising sums due thereunder together with attorney's fees and expenses of said;

NOW, THEREFORE, the undersigned Substituted Trustee, putruant to the statishing and the request so made, does haraby give notice that he will sel during the legal hours, (between the hours of 11:00 a.m. and 4:00 p.m.) on the 6th day of December, 1996, at the main front door of the Hancock County Courthouse, Bay St. Louis, Mississippl, for cash to the highest and best pided and being situated in the County of Hancock, State of Mississippl and being more particularly described as follows, to with the series of the secretal and on property located and being situated in the County of Hancock, State of Mississippl and being more particularly described as follows, to with the series and secretal as follows, to with the series and secretal as follows.

the selected propulsion system(s) to an acceptable level and to produce a highly operable, high thrust to-weight propulsion system(s). Therefore, NASA is proposing to develop and test one or more liquid engines or components that could be used in the final configuration(s) of a new space vehicle(s). Engines under consideration would use liquid oxygen as the oxidize. The fuel would be liquid hydrogen, kerosene, or a combination of the tea. the two.
Facilities under consideration for testing these engines include, but are not necessarily limited to, those
located at MSFC and SSC. Existing test facilities atthese two NASA Centers may need to be upgraded to
accommodate objectives. Modifications may include
addition of a knorcene tank on the test stand(e), a common structural and functional interface, and an engine
mounting adapter. Many aspects of the program would
be similar to test activities of propulsion systems undertaken in the 1980's for the Apolio program.

All test facilities at MSFC are located in the southern
portion of the center and in the center of Redstone

lows, to-wit: Lots 41 through 44, inclusive, Block 83, of the Bay St. Louis Land and Improvement Company's Subdivision of certain lots and blocks of its First Addition to the City of Bay St. Louis and Waveland, Hancock County,
